- Vansh Deep Arya is a Full Stack Web Developer with expertise in DSA, OPPS, Java, JavaScript, HTML, CSS, Bootstrap, GitHub, Node.js, Express.js, MongoDB, and ReactJ. i has experience in developing projects like an Issue Tracker and SuperHero Hunter. I am a Teaching Assistant at Coding Ninjas.

Projects

Upload CSV
Jun 2023 – Jun 2023

- Developed a user-friendly web application for uploading and performing operations on CSV files, including file upload, listing, data display, search functionality, and sorting features..
- **Implemented file validation on both the front end and server side** to ensure data integrity and security.
- Acquired knowledge in technologies **like Multer, Dynamic Schema, Mongoose, fast-csv, and csvtojson.**
- Demonstrated problem-solving skills by resolving issues related to CSV data conversion and successfully completing the project.

Issues Tracker
Jun 2023 – Jun 2023

- Issue Tracker helps Tracking Project and Issue. **the tool offers seamless navigation, powerful filtering options, and efficient issue tracking capabilities.**
- **Backend** - using Node.js server and handle request and response using routes, store the project and issues data in mongodb using mongoose(ODM).
- **Frontend** - Designed and implemented the Home Page, displaying a comprehensive list of projects, allowing easy project navigation. Developed the Project Detail Page, enabling users to filter bugs by multiple labels, search by title and author.
- Deployed the project using **AWS(Elastic Beanstalk).**

Experiences

Full Stack WEB Development [Coding Ninjas]
Apr 23 – Oct 2
